Situated in a historic Dayton neighborhood, Grandview Medical Center is one of the finest osteopathic teaching hospitals in the United States. Grandview Medical Center services include emergency, cardiac, orthopedics & joint replacement, weight loss surgery and endoscopy.

In addition, the hospital is home the areas' only senior behavioral care unit. The unit is devoted to caring for patients 65 years and older who suffer from illness such as dementia and depression.

In 2013, Grandview Medical Center opened a new wing providing additional additional surgery areas. The main entrance and lobby were remodeled along with a new cafeteria, gift shop, pharmacy and salon and spa. The new entrance is easily accessible from I-75.
